Tholumuzi Kuboni

Front-end Developer

Work Experience

Junior Front-end Developer
AT: Hellocomputer, a South African digital marketing agency that specializes in creating innovative digital experiences and campaigns.
FROM: JUN 2022 - **MAY 2023**

- I worked as a front-end developer at Hellocomputer, where I built responsive and interactive websites using HTML, CSS, and JavaScript. I collaborated closely with design teams to transform creative concepts into functional web interfaces, ensuring a seamless user experience. My responsibilities included optimizing website performance, debugging and troubleshooting code issues, and implementing cross-browser compatibility to meet diverse user needs.

Junior Front-end Developer
AT: DVT, a software development company focused on digital transformation technology solutions for clients globally.
FROM: APR 2019 **- MAR 2021**

- I built and maintained responsive web applications using HTML, JavaScript, and CSS. I collaborated with designers to implement user-friendly interfaces, ensured cross-browser compatibility, and optimized performance for faster load times and smoother navigation. My role involved writing clean, modular code, debugging and resolving issues efficiently, and leveraging modern libraries to improve development workflows.

- State Management
- Debugging
- Testing
- XSS
- CSP
- Web Accessibility
- Optimization Techniques
- Browser Developer Tools
- Ctritical Thinking
- Communication
- Programming

Education History

National Diploma in IT (Software Development)
Institution: University of **Johannesburg**
Year of achievement: June **2017**

- I gained a solid foundation in programming, software development, and IT principles. I developed skills in object-oriented programming, web development (HTML, CSS, JavaScript, and server-side scripting), and database design using SQL. My studies also included software engineering concepts, project management, and the software development life cycle. Through the Work Integrated Learning (WIL) component, I applied my knowledge in a practical setting, working on real-world projects. This experience prepared me for entry-level roles in software development and the broader IT field.

Volunteer Work and Interests

Teacher
Institution: Lily River Children's Foundation
FROM: 2021 to **Present**
Every month, I volunteer to teach math and literacy to children ages **5 to 7 years** old .

Member
Institution: Coding Masters Club, Johannesburg Chapter
FROM: 2020 to **Present**
We team up with local organizations to teach high school students what coding is, why it's fun, and how it can be a career path.
